

"I used ZYM Catapult Berry during the 2008 Ironman Arizona and it helped me improve my personal best by 30 minutes – and finish as the second overall amateur female. I have tried other products that resemble ZYM but they pale by comparison. ZYM is so much better."

Chrissy Parks, Elite Triathlete

ZYM Catapult Formula is infused with guaraná (100 mg of caffeine), a natural stimulant to maintain stamina and combat fatigue.

ZYM is the **fuel** that hydrates elite athletes during competitions - without the sugar. Put ZYM to work and feel a difference in **increased performance**.

ZYM is a small tablet that dissolves in water for on-the-go hydration. It's portable, so it goes wherever you go. The tablets are formulated for **16-20 oz. of water**. Each tube of ZYM contains 10 tablets.

Highly-salted hydration products are not the answer. The **formulas we design** for endurance athletes **set ZYM apart** from other hydration products. ZYM's unique blend of electrolytes, B Vitamins and other components is what makes it effective against muscle burn and dehydration. This provides athletes with **fresh legs, natural energy** and **higher endurance**.
